TECHNICAL SPECIFICATION

SPRAY OVEN CLEANER 320

Highly alkaline liquid designed to clean carbon and grease deposits from ovens, deep fat fryers, griddles, stove burners, plates and grills. Product contains a blend of caustic soda solution, non-ionic surfactant, amphoteric surfactant, solvents and dye.

Features include:

- Economical dilution rates.
- Solvents present soften deposits and ensure surfaces are left sparkling clean.
- Reacts with fats to form soap which can be wiped away easily.
- Wetting agents help penetration of greasy soils.
- Surfactants used are biodegradable and phosphate free.

PROPERTIES:

Appearance @ 20°C
pH (neat)
Odour
Specific Gravity @ 20°C
Flammability

SPECIFICATION:

Red, clear, non viscous liquid
> 13.5
Characteristic
1.044 +/- 0.003
Non-flammable

DIRECTIONS FOR USE:

- Spray neat directly onto warm (not hot) surface using Kitchenmaster Flexi Spray applicator.
- Leave for 20-30 minutes.
- Wipe clean.
- For less severe soiling, use a solution at a dilution rate of 1:2 and apply through a Kitchenmaster printed 320 trigger spray bottle.
- DO NOT USE ON ALUMINIUM.

STORAGE:

Store in original container and protect from extremes of temperature. Do not store or mix with acids. Do not store in direct sunlight nor allow the product to freeze. Shelf life (in unopened original container) is a minimum of 18 months.

SAFETY ADVICE:

Under the new GHS Standard this product is classified as Corrosive. Please refer to section 2.2 of the Safety Data Sheet for more information.

PACK SIZES:

4X5L case (48 per pallet)

Order Code: KH320-4X5L
