TECHNICAL SPECIFICATION

LIQUID TRAY WASH 606

An alkaline liquid developed for use in tray wash machines to remove a range of stains. Product contains a blend of non-caustic alkalis, sequestering agents and a corrosion inhibitor.

Features include:

- Suitable for use on aluminium.
- Effectively cuts through fats and protein soils.
- May be used in all water conditions.
- Compatible with all tray/pot and pan washing machines.
- Surfactants used are biodegradable and phosphate free.
- Leaves fine china with a sparkling glaze finish.
- Compatible for use in washing surgical instruments as carried out in hospital C.S.S.D

PROPERTIES:

Appearance @ 20°C

pH neat

Odour

Specific Gravity @ 20°C

Flammability

SPECIFICATION:

Clear, non viscous liquid

14

Slight / characteristic

1.104 +/- 0.005

Non-flammable

DIRECTIONS FOR USE:

- Note: This product is recommended for use on aluminium.
- Dilution rates depend on severity of soiling and water conditions, but is recommended that the product is used at a concentration of 0.1%-0.3%.
- Wash water temperature of 60°C-70°C gives optimum performance.
- To enhance overall performance, use Kitchenmaster Rinse Aid in final rinse cycle.

STORAGE:

Store in original container and protect from extremes of temperature. Do not store in direct sunlight nor allow the product to freeze. Shelf life (in unopened original container) is a minimum of 18 months.

SAFETY ADVICE:

Under the new GHS Standard this product is classified as Corrosive. Please refer to section 2.2 of the Safety Data Sheet for more information.

PACK SIZE:

- 4x5L case (48 per pallet)
- 20L container (40 per pallet)
