TECHNICAL SPECIFICATION

HAND DISHWASHING LIQUID 703
12%

A 12% active concentrated detergent designed for hand washing and high volume dishwashing in sinks. Can also be used as a general purpose detergent. This product contains an anionic blend of surfactants. Dodecyl benzene sulphonate and Lauryl ether sulphate, inorganic viscosity modifiers, preservative and water soluble dyes.

Features include:

- Produces a long lasting, high, stable foam.
- Breaks down fats, proteins and carbohydrates from dishes fast and effectively making it suitable for use in busy food handling and preparation areas.
- Low critical micelle concentration means product is gentle on hands.
- Grease in dish water is held in suspension preventing it from redepositing onto dishes.
- Provides excellent wetting, cleaning and foaming properties.
- Surfactants used are biodegradable and phosphate free.

PROPERTIES:	**SPECIFICATION:**
Appearance @ 20°C	Green, clear, highly viscous liquid
pH (neat)	7.0
Odour	Floral / woody
Specific Gravity @ 20°C	1.003 +/- 0.003
Flammability	Non-flammable

DIRECTIONS FOR USE:

- Scrape food scraps from dishes before washing.
- For manual dispensing: Use at a dilution rate of 1:200 – 1:100 depending on severity of soiling.
- Dilute in warm water.
- A solution at a dilution rate 1:50 may be used for cleaning walls, floors and tiles as a light duty cleaner.

STORAGE:

Store in original container and protect from extremes of temperature. Do not store in direct sunlight nor allow the product to freeze. Shelf life (in unopened original container) is a minimum of 18 months.

SAFETY ADVICE:

Under the new GHS Standard this product is not classified. Please refer to section 2.2 of the Safety Data Sheet for more information.

PACK SIZE:

4X5L case (48 cases per pallet)	Order Code: WUL12PER-4X5L
20L container (40 per pallet)	Order Code: WUL12PER-20L
