TECHNICAL SPECIFICATION

BRITE BIOLOGICAL LAUNDRY POWDER

Laundrymaster Brite is a fully built, low foaming, heavily sequestered, biological detergent specially formulated for OPL systems in healthcare establishments, hotels and schools. Product gives excellent results in both domestic and commercial machines. This formulation contains phosphates, silicates, anti-redepositioning agents, surfactants, optical brightening agents, colour safe active oxygen releasing agents, accelerators, foam control agents with a sweet floral fragrance. This product is used where cost is the critical factor.

Features include:

- * Concentrated formulation means less product used in comparison to domestic products.
- * Extremely effective and economic.
- * Optical brighteners leave whites with that "whiter than white" appearance.
- * Removes stubborn stains.
- * Emulsifies oils and grease type stains.
- * Lower wash temperatures give excellent results because of accelerators present.
- * Active oxygen works on pigment stains such as red wine, grass and tea stains.
- * Fragranced to leave clothes smelling clean and fresh.
- * Blend of surfactants and soil suspending agents prevents greying of fabrics.
- * All surfactants used are biodegradable.

PROPERTIES:

Appearance @ 20°C
pH (1% solution)
Odour

SPECIFICATION:

White, blue speckled powder
11
Fresh, floral fragrance.
