TECHNICAL SPECIFICATION

CONSOLVE CONCRETE CLEANER

Hydrochloric acid based formulation used to effectively clean concrete and masonry. This is a concentrated product which effectively removes all kinds of dirt, scale and spillages from inorganic surfaces such as concrete.

Features include:

- Dissolves and suspends mortar, lime, cement, scale and rust.
- Contains a powerful rust inhibitor, which makes it safe to use on the most ferrous metals, provided the surfaces are thoroughly rinsed after use.
- Economical in use.
- Surfactants used are biodegradable and phosphate free.
- Excellent cleaner for bricks, tiles and garage floors.

PROPERTIES:

Appearance @ 20°C
pH neat
Odour
Specific Gravity @ 20°C
Flammability

SPECIFICATION:

Clear, red, non viscous liquid
1
Characteristic
1.080 +/- 0.005
Non-flammable

DIRECTIONS FOR USE:

- For general descaling and rust removal use at the dilution rate 1:4.
- For the removal of heavy scale / deposits you may need to use a stronger solution.
- For dissolving concrete/ plaster on floors etc use neat and RINSE OFF once debris has dissolved.
- Removal of extremely stubborn stains will be eased by brushing vigorously.
- Do not use on decorative brickwork.

STORAGE:

Store in original container and protect from extremes of temperature. Do not store in direct sunlight nor allow the product to freeze. Shelf life (in unopened original container) is a minimum of 18 months. Do not use with chlorinated products as they will react to give off toxic gas.

SAFETY ADVICE:

Under the new GHS Standard this product is classified as Corrosive. Please refer to section 2.2 of the Safety Data Sheet for more information.

PACK SIZES:

- 4x5L case (48 per pallet)

Order Code: INDCONSOLV-4X5L
