## TECHNICAL SPECIFICATION

### FLOOR STRIPPER

Floor polish stripper removes water based floor polishes, leaving floor surfaces ready for polish applications. Suitable for use on rubber, sealed wood, terrazzo and thermoplastic floors. At high rates of dilution, this product makes an excellent hard surface cleaner.

#### Features include:

- Specially formulated to break down metallised emulsion polish.
- Fast acting formulae.
- Ideal for use with scrubbing machines.
- Surfactants used are biodegradable and phosphate free.
- Solvent free.

#### PROPERTIES:

Appearance @ 20°C  
Odour  
pH (neat)  
Specific Gravity @ 20°C  
Flammability

#### SPECIFICATION:

Red, clear, slightly viscous liquid  
Mild, characteristic  
14  
1.038 +/-0.005  
Non-flammable

#### DIRECTIONS FOR USE:

- Dilute 1 part FLOORSTRIP with 10 parts of clean water.
- Mop this diluted solution liberally onto a section of the floor which is to be stripped.
- Soak for 10 minutes, then scrub with a slow speed machine. (Work on a small area at a time so that the solution does not dry in before it is removed).
- Mop or wet vacuum the polish slurry from the floor.
- Repeat this operation until the floor is completely stripped.
- Rinse thoroughly with water. (A little vinegar may be added to the water to neutralise the slurry).
- Allow to dry before applying polish.
- If the floor has not been stripped for some time, there is a considerable thickness of polish, or you are restricted by time to strip the floor, it is recommendable to use ULTRA FLOORSTRIP - Rinse Free Floor Polish Stripper.

#### STORAGE:

Store in original container and protect from extremes of temperature. Do not store in direct sunlight nor allow the product to freeze. Shelf life (in unopened original container) is a minimum of 18 months.

#### SAFETY ADVICE:

Under the new GHS Standard this product is classified as Corrosive. Please refer to section 2.2 of the Safety Data Sheet for more information.

#### PACK SIZES:

4x5L case (48 per pallet)

Order Code: FLRSTRIP-4X5L
