TECHNICAL SPECIFICATION

FLOORRITE FLOOR POLISH

An aqueous blend of acrylic copolymers, coalescent solvents, plasticisers, levelling agents, polyethylene wax, defoamer, and preservative. Specially formulated to protect and enhance the appearance of vinyl, thermoplastic, linoleum and rubber floors, sealed porous floors, terrazzo, marble, stone and quarry tiles.

Features include:

- Gives a high gloss "wet look" finish.
- Excellent wear resistance.
- Easily maintained.
- May be stripped easily using Kitchenmaster Floor Stripper.
- Resistant to slip, scuffing, soiling and detergents.
- High solids content (25%) means fewer applications to achieve a superb result (leading to reduced labour time).
- Excellent surface adhesion, no seal or undercoat required.
- Surfactants used are biodegradable and phosphate free.

PROPERTIES:

Appearance @ 20°C
Odour
pH (neat)
Specific Gravity @ 20°C
Flammability

SPECIFICATION:

White liquid
Slightly sweet
8.5 +/- 0.5
1.030 +/- 0.002
Non-flammable

DIRECTIONS FOR USE:

- Clean floor and remove all traces of old polish.
- Using a lint free mop, first apply a thin and even coat in one direction across entire floor.
- Allow first coat to dry thoroughly, at least 40 minutes.
- Apply second coat at a 90° angle to the first. Do not apply within 15cm of walls, benches or edge of previous coat to prevent unsightly build up where there is little wear.
- Apply a third coat if you require a higher gloss, less maintenance or using ultra high speed machines.
- Beware of producing foam as this will prevent even film being laid.

STORAGE:

Store in original container and protect from extremes of temperature. Do not store in direct sunlight nor allow the product to freeze. Shelf life (in unopened original container) is a minimum of 18 months.

SAFETY ADVICE:

Under the new GHS Standard this product is not classified. Please refer to section 2.2 of the Safety Data Sheet for more information.

PACK SIZES:

4x5L case (48 per pallet)

Order Code: FLRPOLISH-4X5L
