TECHNICAL SPECIFICATION

HAND SANITISER 808

A clear blue bactericidal solvent based hand sanitizer suitable for use on all food processing operators or any industry where a high standard of hand hygiene is essential. This product contains a secondary substantive biocide and emollient in a highly bactericidal 53% alcohol base. Also contains glycerine to moisturise skin.

Features include:

- Suitable for use in food hygiene areas.
- Hands are left optically clean.
- Fast evaporating formulation removes the need for towel drying.
- Effective against a wide spectrum of gram positive and gram negative bacteria.
- Effective against fungi and viruses.
- Non-irritating to skin.
- Leaves hands feeling soft and smooth without any sticky residue.
- Gives residual disinfection for up to 2 hours following application to the skin.
- Contains conditioners to moisturise skin and leave hands feeling soft.
- All surfactants used are biodegradable and phosphate free.

PROPERTIES:

Appearance @ 20°C
pH (neat)
Odour
Specific Gravity @ 20°C
Flammability

SPECIFICATION:

Clear, aquamarine, viscous liquid
6
Alcohol
0.925 +/- 0.005
Flammable

DIRECTIONS FOR USE:

- Hands must be cleaned before use. Wash with soap and water and dry hands if necessary.
- Massage the product into the skin. Pay particular attention to areas between fingers and around the nails.
- Massage hands until product has evaporated off leaving skin dry and sanitized.
- This product may be dispensed through most standard soap dispensers.

STORAGE:

Store in original container and protect from extremes of temperature. Do not store in direct sunlight nor allow the product to freeze. Shelf life (in unopened original container) is a minimum of 18 months. Store away from sources of ignition.

SAFETY ADVICE:

Under the new GHS Standard this product is classified as Flammable. Please refer to section 2.2 of the Safety Data Sheet for more information.
Manufactured to standard of BS EN 1276 testing.

PACK SIZES:

4x5L case (48 per pallet)

Order Code: HPC808-4X5L
