| Product Code(s): | HMDAZZLEHD                                     |

### HOW TO USE

DAZZLE HD is used directly from the bottle as a ready to use solution and requires no dilution with water. Suitable for a wide variety of cleaning operations in housekeeping, leisure and building services applications. The product contains water soluble solvents to remove grease, finger marks and general dust from mirrors, glass surfaces and other non-porous surfaces in the guest-room, bathroom or public areas.

For the best results do not spray too much product as glass is a non-absorbent surface. Simply mist the product onto the surface (from approximately 30cm) and then wipe off vigorously with a clean dry cloth or hygiene paper for best results. Poor results/smearing will result from over usage or from using dirty cloths.

Can also be used for surface cleaning on non-porous serving area surfaces in retail catering outlets to remove grease and grime to leave a satin shine to metallic surfaces.

#### Caution:

Do not spray too much product onto the surface being cleaned as it may lead to extra wiping and cause smearing on surfaces.

## SAFETY ADVICE

Ready to use solution is not classified as hazardous, however we advise that normal hygiene practices are adopted. Wear rubber gloves when using solutions and avoid contact with eyes. In case of contact with eyes, rinse immediately and seek medical advice. For detailed advice on safe handling and storage of the concentrated product refer to the product Safety Data Sheet. Keep out of reach of children. FOR PROFESSIONAL USE ONLY.

Gloves

### COSHH STATEMENT

COSHH is a law that requires all employers to take steps to control substances (chemicals) that may cause harm to employees, contractors, and visitors to the workplace. Every work environment will be different in terms of the hazardous chemicals that are present, and how these are used, and individual assessments may be necessary to consider how chemicals can be handled and stored safely, in addition to ensuring that appropriate PPE and training is provided for employees. Product MSDS and Product Guidance Sheets are intended to help when carrying out a COSHH assessment, however if further advice is needed regarding specific issues in your work environment, we are happy to provide advice. **E-Mail Technical:** [sales@kitchenmaster-ni.com](mailto:sales@kitchenmaster-ni.com)
